Free Range Chickens

Food4MaccDirect is offering **free range chickens** from **Packingtons near Burton on Trent, Staffordshire**. Packingtons have been rearing free range chickens for four generations and are passionate about their standard of care and welfare. The chickens can roam free in large green pastures which helps produce the most succulent richly flavoured meat often lost in today's intensive farming methods. Those of us who have been lucky enough to try the chicken already can report that it was deliciously tasty and tender. The chickens' provenance is fully traceable and they are fed on the finest maize enriched with Omega3, with no growth promoters or antibiotics.

A few days before being delivered to **Food4MaccDirect**, they are processed by Baileys in Knutsford, who's standards of care & hygiene are second to none.
