

Request for Support

Food4Macc (F4M) will consider providing small grants to help local, non-commercial organisations with initiatives that support its aim of encouraging and promoting the growing and consumption of locally produced food.

Our funds are limited, and individual grants normally range from £100 - £300.

‘Local’ is interpreted as ‘in the immediate Macclesfield area’.

We have strategic rather than short-term aims, and therefore particularly favour projects which involve young people, the citizens of the future.

We have access to volunteers who can help in the construction of fruit and vegetable growing gardens and provide advice, but we are reluctant to commit our volunteers to the ongoing upkeep of new gardens. We therefore want to know who will ‘own’ or ‘sustain’ any proposed project in the longer term.
