

Learn to Grow your Own Fruit and Veg.

For 2012 Food4Macc has a new programme of **Monthly Talks** for vegetable growers, offering advice on topics listed below. You can swap surplus seeds, plants and produce, or pick the brains of experienced gardeners, some of whom have agreed to act as mentors.

If you don't have anywhere to grow vegetables at the moment, you could take use one of the disused vegetable plots that have been offered to Food4Macc under our **Garden Share Scheme**. (see website for sites).

See theory put into practice at one of our six **Community Gardens** in Macclesfield, Prestbury and Bollington, or help with the Town Centre Planting organised by the Macclesfield Guild. See website for dates.
