

Food4MaccDirect

Seasonal Local Vegetables

Our locally grown vegetables and fruit will be sourced as locally as possible, including produce from Cuttleford Farm near Congleton and Food4Macc community gardens when available. During the winter, the veg might have to come from elsewhere in the UK.

Working with local Cheshire farms and Food4Macc community gardens enables us to get the produce to you soon after picking for maximum freshness. Although the community gardens do not have organic accreditation, produce is grown there without the use of artificial fertilisers, pesticides or herbicides.

Food4MaccDirect is offering a bag of seasonal vegetables (or local fruit when available) for **£7.50** (£8.50 to non-members). It is great value for money and we will make it as varied as possible. The veg comes in a returnable jute bag.

During the winter months into early spring, the veg bag is available fortnightly; from late spring to Christmas, it is available weekly.

Send an e-mail to orders@food4maccdirect.co.uk to order your veg bag and register your interest in becoming a full member of **Food4MaccDirect** or a member of the Fruit and Vegetables Buying Group.
