

Standard Colours

www.Food4Macc.org

These colours are selected to be “web-safe”
(ie Always appear the same on different web browsers.)

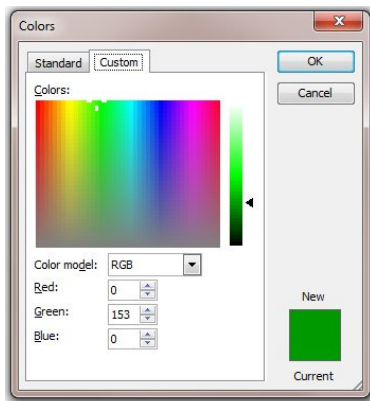

Green can be selected in one of two ways in Microsoft Office products:-

a. From “More Colours; Standard”

b. From “More Colours; Custom” using the RGB values:-

Red=0, Green=153, Blue=0

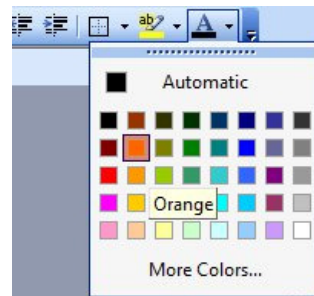

This RGB method can be used with other software such as web design and DTP.

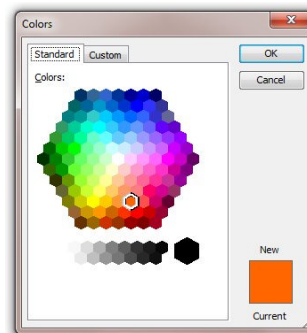

Html Code: #009C00
